EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott A. Lund on 8/23/07.

The application has been amended as follows:

Change claim 19, line 12 to:

"without communication of the printing device with a interconnected computing"

Change claim 34, line 5 to:

"of the printing device with a interconnected computing device."

Change claim 38, line 5 to:

"the printing device with a interconnected computing device."

2. The following is an examiner's statement of reasons for allowance:

Referring to claim 19, Redford '265 in view of Kikinis '075 and Nishiyama '844 teaches a method, comprising inserting a PC Card in a PC Card reader integrated in a printing device; retrieving data from a file in a memory of the PC Card that is in an AV predetermined format, the file comprising compressed audio data and other data;

assembling a key from the other data; establishing direct communication between the printing device and an AV information support system; supplying the key to the AV information support system directly from the printing device and with the AV information support system, locating information identified by the key; downloading the information identified by the key directly to the printing device; and printing a report with the printing device utilizing the downloaded information.

The combination does not teach downloading the information identified by the key directly without communication of the printing device with an interconnected computing device.

Claim 39 is allowable for the similar limitation of "downloading the information associated with the AV file directly to the printing device over the network without an interconnected computing device."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
